

Create beats. Write lyrics. Produce tracks.

***Music production and songwriting sessions
Online or at MAST Music Studio***

With music production and songwriting sessions you'll work with an expert mentor to create beats, write lyrics and produce tracks.

Your mentor can help you produce and write music in a wide range of genres, including rap, hip-hop, R&B, garage, dance music and more.

Whatever your skill level or previous experience, your mentor will find out where you want to go, and help you get there.

Choose between sessions in the studio, and sessions online. Either way, you'll get access to SoundTrap – a music production app which also runs in a web browser – so you can make music anytime, anywhere.

A group of ten, one-hour sessions, usually costs £250, but there are free taster sessions available, and priority access codes are available to claim free places.

You'll need a teacher, or parent, to sign you up at: southamptonmusichub.org/dna

Find MAST Music Studio: MAST Mayflower Studios, 142-144 Above Bar Street, Southampton. SO14 7DU. If getting there would stop you taking part, let us know, and we will try to help with transport.
